DETAILED ACTION

1. Restriction to one of the following inventions is required under 35 U.S.C. § 121 and 372:

I. Claims 2, 4-9, and 11-16, drawn to a method of autologous therapeutic transplantation therapy.

II. Claims 3, 10, and 20, drawn to a composition comprising lymphocyte cells.

III. Claims 17-19, drawn to a method of making or maintaining lymphocyte cells dormant.

2. The inventions listed do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

EP -A-0668013 (1995, IDS) teaches the lymphocytes of Claim 2 (see page 2).

3. Accordingly, Groups I-III are not so linked as to form a single general inventive concept and restriction is proper.

4. Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed.

5. It is noted on the file wrapper that an Information Disclosure Statement (IDS) and Form 1449 were submitted on 8/17/01. Neither document has been delivered to the Examiner with the application. Accordingly, the submission of additional copies of the statement and form are requested. The Examiner regrets any inconvenience this request may cause Applicant.

6. Any inquiry concerning this communication from the examiner should be directed to Dr. Gerald Ewoldt whose telephone number is (703) 308-9805. The examiner can normally be reached Monday through Thursday from 7:30 am to 5:30 pm. A message may be left on the examiner's voice mail service.
